It is with immense pleasure and pride that I welcome you to the inaugural issue of IPI Letters, the official journal of the Information Physics Institute (IPI). As the Editor-in-Chief, I am thrilled to present this publication dedicated to advancing the frontiers of information science.

IPI Letters embodies the spirit of intellectual curiosity, innovation, and collaboration that defines our institute. It is a testament to the passion, hard work, and creativity of the aspiring researchers who have contributed to this inaugural issue. Our journal aims to provide a platform for students, researchers, businesses and members of the public to showcase their scientific endeavors, exchange ideas, and contribute to the global body of knowledge in information science.

We firmly believe in the power of open access publishing, and thus, IPI Letters is freely available to readers worldwide. We strive to promote equitable access to knowledge, ensuring that our research reaches a broad audience and fosters collaboration across disciplines and geographical boundaries. By removing barriers to information, we aspire to inspire and empower scholars, practitioners, and enthusiasts alike.

We extend our heartfelt appreciation to the dedicated reviewers and members of the editorial board who have generously shared their expertise and helped shape the quality of our publication.

IPI Letters is not just a journal; it is a vibrant community of minds united by a shared passion for information science. We envision our journal as a platform for dialogue, collaboration, and growth. We encourage readers to actively engage with the published articles, share their thoughts, and participate in meaningful discussions. Together, we can push the boundaries of knowledge, foster innovation, and pave the way for a future where information science plays a pivotal role in shaping our world.

I invite you to explore the diverse articles in this first issue of IPI Letters, which is open to submissions and will continue to accept articles throughout 2023. May they inspire you, spark your curiosity, and ignite conversations that lead to groundbreaking discoveries. We eagerly anticipate your continued support, feedback, and future contributions to our journal, and we invite you to join our community by becoming a member of the Information Physics Institute.

Thank you for joining us on this exciting journey. Together, let us forge new paths in the fascinating realm of information science.

With warm regards,

Melvin M. Vopson
Editor-in-Chief, IPI Letters
